PACK AWAY HUNGER®

Annual Report

Dear Hunger Advocate,

Thanks to the incredible support of partners like you, 2021 was a year of progress. An increase in meal packing events allowed us to create 759,822 meals - more than double what was packed in 2020. We resumed international meal distribution to trusted, in-country organizations that provide holistic support to communities in need.

Personally, I'm most proud of the launch of our educational programming in schools and summer camps. These sessions not only educate students about hunger, but also inspire them to become the next generation of hunger advocates.

In 2022, we're committed to building on these successes and meeting the ever-present need for nutritious food. We're setting a big goal for the year - engage more than 5,000 volunteers to pack 1.4 million meals for those in need. With your continued support, we know that goal will become a reality.

With gratitude,

Abigail Harlan
Executive Director

Our Mission in Action

NUTRITIOUS FOOD

As meal packing events picked up in 2021, so did the number of meals we distributed. We worked tirelessly to deliver hundreds of thousands of meals to local food pantries and to international communities in need.

EDUCATION

2021 saw the launch of our education curriculum in schools and summer camps around the state. More than 216 students learned about hunger and packed meals for their communities.

SERVICE

Nearly 3,000 volunteers from businesses, churches, schools, camps and community groups made a stand against hunger in 2021. The time they spent packing meals for others was meaningful - and fun too!

Thank you!

We're incredibly grateful for the support of our donors, event hosts, volunteers and granting organizations. Thank you!
